Ultramed Inc.

This year is critical to all surgical processors in the province of Alberta. We (the interim board) have worked towards opening lines of communication, compiling updated lists of sites and individuals, constructing a website, and developing a network across the province.

As an interim board, we were appointed to these position.

This year there will be elections held to allow you to vote in a President, Executive Vice President, Secretary, and Treasurer. They are 2 year terms.

It is important to have strong leadership and commitment. There are many issues that we will need to deal with in the coming months and years.

Talk to each other. Encourage each other to stand up and join in. These positions need to be filled to continue on. Be prepared, with nominations, during this conference.

This is your opportunity.
